## Press release

### Erganeo certified ISO 9001

*Erganeo has been certified for its quality management system, in accordance with the requirements of the ISO 9001:2015 standard.*

Erganeo is committed to a quality management approach in order to improve its processes and better meet the expectations of its customers and shareholders. Today, Erganeo is proud to announce the certification of its quality management system according to the ISO 9001:2015 standard, awarded by the accredited company SOCOTEC Certification France. The certified activities are the protection, the investment in maturation, the transfer of expertise and intellectual property assets related to the research of our shareholders to the industrial world.

Naceur Tounekti, Erganeo's deputy director and coordinator of the process, emphasizes:

"The ISO 9001 certification is a real achievement for our teams, who have been committed to the implementation of a quality approach since 2019 with the objective of corresponding the needs of our institutions and customers in a way of continuous improvement.

From now, the quality management system allows us to ensure the continuation of our operations, to reassure our customers and to guarantee the sustainability of the company. Within this framework, we have implemented optimized operating procedures with controlled risk management and continuous optimization of results.

With this certification, we will continue our efforts to maintain this quality management system in order to meet the challenges related to our mission of promoting public research to the industrial sector.

#### **About Erganeo** – [www.erganeo.com](http://www.erganeo.com)

Erganeo is a French investment fund that specialises in breakthrough innovations (deep tech) with a major societal impact. We invest early in the game to secure researchers' newest inventions before they are transferred to companies or before start-ups are founded, across a wide range of scientific fields: Biotech, Infotech (Telecom, connected objects, big data, AI) and Energetech (new energy, chemistry, materials), among others. Erganeo aims to accelerate and simplify links between research and industry for the benefit of society. To do so, we finance and accompany the new generation of French researchers and entrepreneurs on the road to international recognition and success.

As a member of the SATT Network, Erganeo draws on the Ile-de-France network in building the foundations of a better tomorrow, tapping into a talent pool of over 20,000 researchers across 350 cutting-edge, leading laboratories. Since it was founded, Erganeo has invested over €41m, thus contributing to the signing of 88 licensing agreements with companies of all sizes and setting up 31 start-ups.
